IT ASSESSMENT

TECHNOLOGY EVOLVES AT A RAPID PACE
It's likely that your IT infrastructure is inadequate for business operations.

An IT assessment from Helion Automotive Technologies will provide you with detail on the current state of your IT and recommendations moving forward.

WE'LL LOOK AT:

SECURITY

- Risk assessment
- Check security policies & guidelines
- Review network, servers, firewalls, external connections
- Review active security measures (antivirus, network monitoring)

SERVERS

- Review configurations of servers
- Look at current admin rights

NETWORK

- Look at ages of PCs
- Review switches
- Check for enterprise-grade equipment

CARRIERS

- Assess bills from phone, Internet and DMS providers
- Look for excess costs/overpaying

WIRELESS

- Check for adequate wireless coverage
